CS 111

Foundations of Program Design

Week 11, Monday Lecture

New tutoring hours

Omyaa's office hours are 1 - 2:30pm Fridays. These will be added to the course syllabus.

You can ask the instructors any questions about the course content, including lectures and quizzes.

Changes to quiz structure

The purpose of the timed quizzes is to prepare you for the exam format.

Previously, quizzes were 20 minutes long. Now they are 15 minutes, but with fewer open-ended questions.

Where you do see an open-ended question, partial answers will earn partial credit; you are encouraged to share your work on your page.

This lecture

On the board: Class diagrams and ArrayList usage.
