

CS 111 - Foundations of Program Design

M/W afternoon section

CS 111 - Foundations of Program Design

This course introduces program design and fundamental programming concepts in Java, such as:

- * Types
- * Conditionals
- * Loops
- * and Objects

CS 111 - Foundations of Program Design

M/W afternoon section

Your Teachers

- Instructor: Dr. Jasmine Tan Otto
jtotto@usfca.edu
- TA: Paria Akhtarmoghaddam
pakhtarmoghaddam@dons.usfca.edu
- TA: Enzo Queirolo
ejqueirolo@dons.usfca.edu

Office Hours

Mondays 3:30pm – 4:30pm, HR 407B.
Wednesdays 11am – 12noon, HR 407B.

Thursdays 12:30 – 1:30pm, HR 411/413.
Fridays 2 – 3pm, HR 411/413.

Wednesday 3:30 – 5:30pm, HR 407B.
Saturday 12 – 2pm, on Zoom.

My background

- Visualization researcher & educator

Projects > All Projects > MarsIPAN

MarsIPAN
Mars Relay Pass Explorer
2021

COLLABORATORS
Benji Donitz, Advanced Design Systems Engineer; Jack Maydan, Spacecraft Systems Engineer, NASA/JPL Mars Sample Return Program

DATA VISUALIZATION TEAM
Noah Deutsch (Designer); Malika Khurana (Designer); Jasmine Otto (Developer)

Mars Sample Return (MSR) is a jointly planned mission with NASA and the European Space Agency that will collect scientific samples from Mars for closer study on Earth. The mission relies on closely coordinating multiple instrumented robots and landers on Mars, and is constrained by the available relay communications windows between Earth and Mars.

- PhD Computational Media, University of California Santa Cruz
- Visualization developer at NASA Jet Propulsion Lab

This course

Introduction to program design and fundamental programming concepts, such as control flow and object-oriented programming, using Java.
